

Why we replace your cabin filter, in black and white.

- Cabin filters prevent all sorts of harmful pollutants, pollen and general nasty stuff from entering your car and, ultimately, your lungs
- For health reasons we recommend that your cabin filter is changed annually
- Which is why we will replace the cabin filter as part of your service schedule.

MOTAQUIP

**If it's not
in your
cabin
filter
it's in
your lungs.**

Cabin filters stop all sorts of harmful pollutants entering your car. So a clogged filter could damage your health. Which is why we will replace your cabin filter as part of your annual service.
